

76/0894

25 February 1976

MEMORANDUM FOR: Assistant for Resources, DD/A

SUBJECT : Coordination of RD&E Program

REFERENCES : a. DDS&T 908-76, dated 20 Feb 76,
Subject: Coordination of RD&E
Program
b. DD/A 76-0485, dated 24 Feb 76,
Subject: DDS&T Research, Develop-
ment and Engineering Projects
Related to DD/A Requirements

1. Per REF A, you will find attached our formal requirements to ORD which have been fully coordinated with them and incorporated in their program.

2. Per REF B, the four projects which we requested were mutually arrived at with DDS&T. I am the focal point with ORD for OMS and each of the projects which we have an interest in are being followed by one of our staff officers. Generally speaking, we believe ORD has been responsive to our requirements within the funds available to them.

3. With reference to the specific projects attached to REF B, we have no formal requirement for OTS 4099 but have an interest in any data which may come from that project. We have no requirement for ORD 7414 in its present form. We do have the problem of developing a stand alone secure computer system but their approach does not appear to be compatible with our needs. We do have a requirement for ORD 8315 which is included in the attachment.

4. Please let me know if you need any further information on this matter.
